

## Event Partner Opportunities

The National Social Care Conference is Wales's largest social care-focused event, offering a unique conference experience to event partners and delegates with involvement or interest in the social care sector.

This annual event takes place online for the first time in 2020 and is attended by a wide delegation, with something for every care workforce member, from frontline staff involved in delivering care to children, adults and their families to managers, and senior decision makers in local and national government.

NSCC2020 will be attended by a wide delegation from across the care sector including people who work in social services, social care, early years and childcare in Wales, from frontline practitioners to senior decision makers, as well as social work and social care students. If you are, or want to be, a supplier of services or related goods to the public, private and voluntary sectors, the National Social Care Conference 2020 offers a unique opportunity to raise your profile.
